

Confirmation of Engagement at Chichester College

This statement confirms that I have undertaken a placement working with architecture students at Chichester College, completing a total of **60 hours** between **February and April 2025**.

During this period, I contributed to the educational experience of students within the architecture and built environment curriculum. My role involved:

- Assisting in studio-based learning, offering feedback and critique on student design projects.
- Supporting students in developing their architectural concepts, technical drawings, and model-making skills.
- Engaging in one-to-one and group discussions to enhance students' understanding of architectural principles and design thinking.
- Contributing to the planning and delivery of design workshops and collaborative sessions.
- Observing and participating in the teaching environment to gain insight into architectural education and pedagogical practices.

This experience has deepened my understanding of architectural education and provided valuable professional development in a creative academic setting.

Name: Amy Walker-Smith
